

## Builders List - Duchy Airpark

Anthony Rist is a current Duchy Airpark resident from NY. Anthony built his own home at the Duchy. I would recommend Anthony because he defied the expensive estimates he received, then decided to build his own house. Anthony has now asked to be placed on my Duchy Airpark Builders List. You can talk to Anthony at 845-741-3813. Email: [mustang4870@yahoo.com](mailto:mustang4870@yahoo.com)

These builders were recommended by a lot owner who decided not to build.

Charles Jones Construction 336.449.5553 [we really liked him, he was our preferred builder, and he built Harry & Anne Dill's home]

The following builders have been recommended by Duchy residents who had various ones build their homes.

We used Charles Jones, who also built the house on Lot 25. We were very pleased with the quality of Charles' work and the construction process, and I believe he would like to build more homes in The Duchy. The hangar was not an issue with him at all, and we recommend him without reservation:

Charles L. Jones, General Contractor
